

# CELEBRATING HOUSING SUCCESS

Middlesex United Way provided Community Impact grants to Middlesex Habitat for Humanity of Connecticut in 2023 and 2024. This funding helped support the construction of a new home in East Hampton for Krystal Rivera and her family. Our team had the chance to work with Krystal while volunteering on the jobsite and enjoyed the experience. She and her family officially moved into the home in the summer of 2023.

In 2024, Middlesex Habitat for Humanity of CT began the process of shifting its construction model to energy-efficient, prefabricated homes. This initiative aligns with the goal to provide affordable housing options while bringing down costs to homeowners in the long run through energy efficient construction methods.

Construction on two homes in Cromwell and a home on Brown Street in Middletown will likely begin in the coming months. Scan QR Code to learn about volunteer opportunities.

**“TO DESIGN YOUR HOUSE AND THEN TO KNOW THAT THE BOARDS IN THE WALLS HAVE SPECIAL WORDING, MEMORIES, SENTIMENTS, AND ‘BEST WISHES’ TO MY NAME AND MY CHILDREN’S NAMES... IS SO SPECIAL. IT’S REALLY A DREAM COME TRUE.”**

*Krystal Rivera  
Homeowner, East Hampton*
